

## One-Click Degree Plan Import

**Where:** From the **Home Screen**, users will see a link that will instantly add all courses from their degree plan into the desired course list in schedule planner.

**What:** The quick link will appear if the following case:

1. The student has 1 or more courses in their degree plan that exactly match the term the student has selected in schedule planner.

2. The student does not already have courses selected in schedule planner for that term.

**Why:** By allowing students to easily add planned courses from the home screen, it encourages them to utilize their degree plan and stay on track towards graduation.

**\*\*Requirements\*\*:** This feature is only available for institutions that have integrated their degree planner with Schedule Planner.

### Courses

+ Add Course

 Add the courses you wish to take for the upcoming term.

 Your degree plan shows 2 courses for Fall 2015-2016, [click here](#) to load them into your course list.

## Nudging for Courses Outside of Degree Plan

**Where:** On the **View Schedule Page**, a warning will appear at the top of the schedule indicating courses that **do not** exist in the student's Degree Plan. Also, when a student clicks **Send to Cart**, a **pop-up window** will appear alerting the student of any courses that are NOT included in their degree plan. Both of these features can be toggled on and off separately.

**Why:** By calling out courses that aren't in their Degree Plan, students are encouraged to review unplanned courses and it allows the institution to make sure the student is warned about going off-track. It also reinforces the importance of keeping degree plans updated.

**Options:** Institutions can choose to use one or both of these degree plan nudging techniques. Also, these features can be hidden for students who have empty degree plans.

**\*\*Requirements\*\*:** This feature is only available for institutions that have integrated their degree planner with Schedule Planner.

## Lock Student to Only Degree Plan Courses

By setting an attribute on a student and communicating that attribute to the College Scheduler team, College Scheduler will only allow students with that attribute to pick courses from their Degree Plan. They cannot select courses any other way.
